Why Wotanism and the Pyramid Prophecy?

The power of a religion was again demonstrated in the suicide bombings of the World Trade Center on September 11, 2001. Service to the perceived commands of "God" can even override the instinct for self preservation. Giving credit where it is due, the proponents of a religion called Identity Christianity realized the power of a religion when they formulated its theology as a tool to resist the Judeo-American/Judeo-Christian murder of the White race. However, for reasons detailed here, the strategy has been a complete and utter failure. It has not stopped forced bussing, open borders, anti-White propaganda, miscegenation or the ever accelerating plunge to extinction. Why? First, it clings to the absurd idea that America is "God's chosen land," for the preservation of the White race.

Since America is the murderer of our race, such nonsense brings ridicule instead of capable recruits. Second, Identity clings to the New Testament. Most Wotanists (also intelligence and force within the Universe which we call God or All-Father. And polls show that the majority of our Folk share that belief. Wise men know that our limited senses cannot perceive the near infinite vibrations, wave lengths, dimensions etc., that may exist. However, modern White folk do not accept that God is so insecure that he will torture mortals eternally if they don't spend every 7th day telling him how great he is. The motive force of the entire Universe did not turn himself into a mortal man in order to have himself killed by mortal men, in order to keep himself from eternally torturing mortal men. The God of Nature is not irrational. Neither is God composed of some emotion called love as New Agers and Judeo-Christians teach.

The Creator made lions to eat lambs, hawks to eat sparrows, and the races of man to compete for life, territory and power. There is no love, just harsh, ruthless, pitiless, Natural Law. The New Testament is a religion of "afterlife" and the selfishness of personal "salvation." The Old Testament is about the reality of this life on this earth. The philosophy of the Old Testament helped Jews conquer the world and get the power to sentence the White race to death. It teaches taking power, wealth and women, with cunning and force. Its philosophy will benefit any race or people. Aryans followed the New Testament and may soon be an extinct specie. No more needs be said!!! None the less, a religion for White Folk is a vital necessity.

To that end I began teaching an updated form of our most common indigenous religion about 20 years ago. Its major deity is called Wotan, or Odin or Woden. Updated to be racial rather than tribal, and to remove any conflict with modern science. The Gods, Goddesses and myths of Wotanism represent the forces of Nature. They are used to mold the character of children, they are the power of symbolism, and they both preserve and conceal the ancient "Mysteries." History shows that a religion must have a founder, often called a "prophet." Since no one else assumed that role, I have done so. Recognizing full well the fate of "prophets" is usually scorn, ridicule, imprisonment or even death. About 1830, a man named Joseph Smith, along with Masonic Adepts in the "Mysteries", formed a religion for the preservation of the White race. It was called Mormonism. It was restricted to the White race and it condoned Polygamy. Joseph Smith was slandered,

called crazy, and thrown in prison, where he died. Now at age 63, with a life sentence in prison, I expect the same fate. So realize that I seek no glory from the Pyramid Prophecy or as a prophet of Wotanism.

The only reason for a true natural man to fight for wealth, fame or power is to acquire women, as sexy and young as he can. This is declared by Nature and extrapolation as we see bulls battle bulls, stallions battle stallions, roosters battle roosters, for possession of females. And then Nature declares only the best shall breed, this for the strength and preservation of the race or specie. Since sexy young women are not a possibility for me, I receive no benefit from the prophecy. As for the adulation of the masses, I despise them. Today they call me a hater and a bigot because those with power and control of the press programmed them to believe such propaganda. If the day came that I had power and control of the media, they would love me. They are vacuous biological computers and their adulation is utterly meaningless. I have fought "Because the beauty of the White Aryan woman must not perish from the earth". I did not fight to save biological computers (minds) which are no more than machines without a soul.

The fundamental theology of Wotanism is the 2nd of the 88 Precepts as follows: "Whatever people's perception of God, or the Gods, or the motive force of the Universe might be, they can hardly deny that Nature and Nature's Laws are the work of, and therefore the intent of, that force." Since the first and highest Law of Nature is the preservation of one's own kind, then the 14 Words, i.e. "We must secure the existence of our people and a future for White children" are a divine command of God, All-Father Wotan. This philosophy and theology stands on its own, simple and irrefutable, yet just as Joseph Smith relied on alleged hieroglyphs inscribed on golden tablets, so also Wotanism has its further validation. That is the function of the Pyramid Prophecy. However, that is not the only similarity, which is to be expected since Nature declares the same truths to all who observe her lessons with integrity.

The original Mormon religion, as said, taught Polygamy and racial separation. The race murdering U.S. government first forced them to abandon Polygamy. Later, the government passed the 19th amendment to the Constitution. Then the government forced the Mormons to accept racial integration with its inevitable miscegenation and genocide. The sequence was no accident. A race whose males are mentally castrated is easy to subdue. But a race whose males have unrestrained sexual libido, and who fight to keep the harem they dominate, cannot be defeated while yet they breathe. That's why our organic indigenous religions were fertility cults. No disrespect to the word cult.

This is why Wotanism allows or promotes Polygamy, as did early Mormonism. Not demanding Polygamy of course since Wotanists believe in personal freedom and choice as much as is possible. The sex drive of the males of a race that wishes to survive must not be hindered, slandered, diminished, misdirected, and in revolutionary times even its excesses must be excused. A race whose males will not fight to the death to keep and mate with its females will perish. The symbols, geometry, mathematics and codes within

the Pyramid Prophecy are accurate and appear to be beyond coincidence. How they came to be, and the strange inexplicable way in which they were revealed are not the subject or point. The purpose of the Pyramid Prophecy is promulgation of the 14 Words and 88 Precepts as foundations of a religion that will save the race of Galileo, Shakespeare, Kipling, Edison, Plato etc., from eternal extinction. Hopefully there are those of vision who will use it wisely in furtherance of Nature's highest Law.

David Lane

We must secure the existence of our people and a future for White children.
Because the beauty of the White Aryan woman must not perish from the earth.

MYSTERY RELIGIONS AND THE SEVEN SEALS

Introduction

The sixth of the 88 Precepts says, "History, both secular and religious, is a fable, conceived in self-serving deceit and promulgated by those who perceive benefit." After perusing documents from the Vatican library Napoleon said history was a fabrication.

Henry Ford commissioned a group of scholars to study the real powers behind governmental and religious institutions, then stated, "History is bunk." Today, American school books are being rewritten to credit the accomplishments of White people to the colored races. It appears that future generations will be taught that Martin Luther King was the central figure in American history, that Oswald assassinated President Kennedy, that David Koresh and the innocent victims of Federal murderers at Waco, Texas were dangerous child molesters, and that the alleged holocaust of six million Jews in World War 2 is the most important event in history. This is only a tiny example of the falsity of history as related in just the twentieth century. The fact is power systems, both secular and religious, have created, altered, invented, slanted, back-dated and propagandized historical and current events for political purposes always. The propaganda of the victors becomes the history of the vanquished. We must remember this maxim when reading establishment versions of past events. Had England won the American Revolutionary War, George Washington would have been hanged for treason and for over 200 years his name would have been reviled in school textbooks. Had the followers of Woden/Odin/Wotan won the 1,000 year war between Roman Judeo-Christianity and the followers of the White man's organic, native religion, Christianity would have been labeled a religion of superstitious ignorance and the White race would not face near certain extinction.

The Catholic encyclopedia says Constantine in 325 CE made Christianity the official religion of the degenerate Roman Empire because he was impressed by Christian morality. Yet secular records show Constantine's judgments of morality by his actions.

Few men have been more cruel or engaged in more acts of torture and murder. His character is best exemplified by his treatment of his wife Fausta, whom he married as a political ploy to gain control of the empire. When he had no further use for her he disposed of her in a manner befitting his "commitment to morality." He had her restrained in a large cauldron of water, then lit a fire beneath it and slowly cooked her to death. But even such actions by Constantine are dwarfed as evil by his contribution to the next 1700 years, as we shall see. For it is he who conspired with organized Jewry in the creation of Judeo-Christianity. With the ideas so far elaborated a thoughtful person might ask, "How then can we ascertain truth?" Not the "truth" of blind faith or belief, which are the tools of priestcraft and statecraft, but pure Truth by which men can safely and properly govern their affairs.

This is a question which has plagued mankind from the dawn of recorded history. The following you are about to read will show how initiates into an ancient wisdom preserved true knowledge throughout the many centuries of persecution by tyrants of both church and state. Some have known and saved the ancient science and religious teachings from

at least the time of the construction of the Great Pyramid, Stonehenge and possibly far beyond. Among them are Druids, Priests of Egypt, Initiates such as Pythagoras and Plato, the first Christians who were either Gnostics or related adepts, Cathars, Knights Templar, Teutonic Knights, Rosicrucians, early Masonic Orders and unknown initiates into Hermetic philosophy. In the first millennium before the Christian Era, the secret teachings were kept alive in the Mystery Schools and corresponding Mystery religions which were found from Tibet in the East to Uppsala, Sweden in the West. Among the many Mystery religions, all concealing the secret teachings, were Odinism, Mithraism, Zoroasterism and Gnosticism, as well as the Greco Roman religions featuring Gods such as Apollo, Zeus and Jove, or Jupiter. As we shall see, it is a grave error to assume that all our ancestors were ignorant barbarians who took literally the wild tales in the mythologies. As Manly P. Hall says in his monumental work "The Secret Teachings of All Ages", " There are few mature minds in the world, so the philosophical religious structures of the ancients were divided to meet the needs of two fundamental groups of human intellect, one philosophic, the other not capable of appreciating the deeper mysteries of life. To the discerning few were revealed the esoteric teachings while the unqualified masses received only the literal or exoteric interpretations. In order to make simple the great truths and abstract principles of natural law, the vital forces of the universe were personified, becoming the Gods and Goddesses of the ancient mythologies."

Adepts, of course, having created the mythologies, did not believe that a physical Thor caused thunder with a magic hammer, or that a physical Zeus threw lightning bolts from Mount Olympus, or that Isis brought a dismembered Osiris back to life, or that the earth stopped spinning so the Israelites could have extra sunlight in which to slaughter their enemies, or that a physical Jesus raised others or himself from the dead. Undoubtedly, a few of the credulous or simple-minded did indeed take the mythologies literally, just as a few still do today. However, under the Mystery or Pagan religions all were free to pursue deeper knowledge, to "believe" or to ignore both science and religion altogether. This arrangement permitted freedom for the masses and enlightenment for those inclined toward intellectual pursuits.

Then came the disaster of 325 CE when decadent Romans led by Constantine conspired with wealthy Jews to force a universal religion on the world. The 58th Precept states: Tyrannies teach what to think. Free men learn how to think." Since the words of political and religious prostitutes of the ages and the propaganda they call history have little relation to fact, we must learn how to think if we are to decipher history with any accuracy at all. When judging the writings one encounters, some philosophical principles should be employed. First judge the words, actions and results of all power systems by "who benefits."

Secondly, the results of men's actions are infinitely more indicative of intent than the words of men. So, always judge by results. It takes no rocket scientist or great mind to ascertain that only someone called Jews can or could benefit from a religion in which Jews are called "God's Chosen People." In effect, someone called Jews hired the decadent Roman Empire to murder everyone in Europe who would not accept a new universal religion in which the Jews were God's Chosen

People and destined to own all Gentiles as slaves. In the process the entire White race was forced to profess literal belief in the Judeo-Christian mythologies. The world has been insane ever since.

In our search for ultimate truth we must, therefore, ascertain who the people called Jews are, when their conspiracy originated and if they have any relationship to the Hermetic philosophers who created the mythology of ancient Israel.

Fortunately, mankind has always had secret friends who opposed tyrants, past, present and future. They have been called the Watchers, Adepts, Initiates, Hermetic Philosophers, the Great White Brotherhood, the Brotherhood of the Seven Rays and other titles. The titles may be unimportant, but the value of their legacy is beyond measure. They have given us alphabets, languages, measurements, religions, music, art, ritual, books, medicine, science and more. Unrecognized and often within church and state they secretly guided and moderated. When discovered, some like Giordano Bruno were burned at the stake. His crime was teaching that the earth traveled around the sun. Others like Galileo were forced to recant scientific fact. Be it the poison of Hemlock, the headsman's axe, burning at the stake, Federal infernos in Waco, Texas and around the world, the inquisitors rack, imprisonment or any number of other devices throughout history, the tyrant tolerates no competition. In the words of an old Mongolian proverb, "The Truth Teller is wise to keep one foot in the stirrup." In light of many thousands of years of experience with despots, the Hermetic philosophers developed methods to code their wisdom in geometry, myth, ritual, symbol and gematria, and thus leave guideposts for this age. The following will provide a concise introduction to the teachings of the ancients and to the devices by which their wisdom and teachings were preserved down through the ages. Do not be dismayed by repeated reference to number. What little actual arithmetic is employed is simple math and is absolutely necessary. The wisdom of the Hermetic Philosopher includes the reality that while words are subject to interpretation, the relationship of number is constant forever. Presented here is a wisdom which has been known to a few for thousands of years, mercilessly persecuted for 1,700 years, but can yet return the world to sanity. In the language of the Gnostics, the seven seals of Revelation are opened here and the seven spirits of God are discovered.

Chapter 1 - Coding

Students of ancient languages and bible scholars have always known that old alphabets such as Hebrew, Greek and others have numerical values assigned to each letter. Thus a word, a phrase or a larger text can be assigned a mathematical total by adding the value of all the letters involved. An example is shown next, as we learn why the Greek Gnostics called Jesus the Ogdoad, meaning "group of eight."

Below is a chart showing the values of letters in Greek.

Αα	Ββ	Γγ	Δδ	Εε	Ζζ	Ηη	Θθ
1	2	3	4	5	7	8	9
Ιι	Κκ	Λλ	Μμ	Νν	Ξξ	Οο	Ππ
10	20	30	40	50	60	70	80
Ρρ	Σσς	Ττ	Υυ	Φφ	Χχ	Ψψ	Ωω
100	200	300	400	500	600	700	800

illustration #1

The following illustration is the Greek name for Jesus with the corresponding value for each letter and the total : 888

Ι	=	10
η	=	8
σ	=	200
ο	=	70
υ	=	400
ς	=	+ 200
		888

illustration #2

This is a perfect example of why I have taught that men who desire freedom must learn how to think. 'How' means always ask 'why.' Out of the millions of people who know that Hebrew and other alphabets have numerical values, almost none pursue the reason. Ask a

Judeo-Christian preacher why and he will either plead ignorance or brush you off with the standard religious tactic of demanding blind faith in the myths. When the thoughtful person who knows how to think is confronted with repetitive or striking phenomena he immediately desires to investigate. Some thoughts which might cross his mind are that 888 is like 666, a multiple of 111. Further investigation would show that both 888 and 666 are evenly divisible by 74. At this point I will take a little shortcut, show you some phenomena and prove them later. Let A=1, B=2, C=3, D=4, etc., because English language gematria is thus simplified. Here are Jesus and God in the English language as the names were designed by Sir Francis Bacon and other initiates.

$$\begin{array}{c} \text{J E S U S} \\ 10 \ 5 \ 19 \ 21 \ 19 = 74 \end{array}$$

$$G = 7$$

O = the Sun and Sun Square inside the Zodiac circle

D = 4

Next the perceptive person might look at the great seal of the United States shown in this illustration.

THE GREAT SEAL OF THE UNITED STATES OF AMERICA

Count carefully and you will find 72 stones in 13 rows in the face of the pyramid. The large stone carrying the Roman numerals for 1776 at the bottom makes 73, and the capstone of the pyramid with the "all seeing eye of Judah" makes 74. Lest you think it is all coincidence, please note the date chosen for the American revolution, July 4, seventh month, fourth day, again 74. And 1776 is 74×24 , or 111×16 , or if you like, $666 + 666 + 444 = 1776$. America was formed by Jewish cabalists with a 222 year timetable to destroy the integrity of every race, nation and culture on earth and establish a Jew world order.

The timetable has been largely completed, although pockets of resistance are still extant. Please, also, note:

$$666 + 666 + 444 = 1776 + 222 = 1998 \text{ and} \\ 666 \times 3 = 1998, \text{ their target date.}$$

The numbers are picked from the fourth of the seven magic squares (See illustration in chapter 2) called the Sun Square. In the next chapter we will explore and explain the seven mathematical devices now denigrated as the "First Seven Magic Squares," but which in the mystery religions (including the first Christianity) were called the mind of the Creator God. But, first let us return to the alphabets and their numerical values. The obvious and easy to explain first purpose of letters with numerical equivalents is to hide secrets. By the simple process of changing letters to numbers or numbers to letters both mathematical and written messages can be encoded. Sir Francis Bacon and the initiates who constructed the English language authorized King James Bible formed it as a device to encode the ancient wisdom. It may well be the most intricate such book in history. In addition the division of the bible into books, chapters, verses and words form it into a physical representation of the seven squares called the "Seven Spirits of God," and these match the hidden codes in the text. An easy example is the division of

the verses in the first seven chapters of the Song of Solomon which are divided thus and reduce to the equation $88^2 = 7744$.

$$\begin{array}{ccccccc} 17 & 17 & 11 & 16 & 16 & 13 & 13 \\ 1 + 7 & 1 + 7 & 1 + 1 & 1 + 6 & 1 + 6 & 1 + 3 & 1 + 3 \end{array}$$

$$8827744$$

In the third chapter of the Mystery Religions we will show how holy names were created to conform to the magic squares, but first let us again return to the alphabets. This time we will explore some esoteric teachings of Gnosticism and the Mystery Religions. In the King James Bible in John 1 at verse 1 we read that "God is the Word." On the surface it seems a nonsensical statement. But now we will consider it through the eyes of a Hermetic philosopher. When a letter is vocalized as a sound, it is vibration. A complete word or combination of letters is then in scientific terms a vibrational complex. Through a modern science called cymatics we find that specific materials subjected to specific vibrations form into specific patterns. Place a drop of turpentine on a plate of glass. Subject it to vibration of sound and it will form into the same patterns found as building blocks in nature.

Obviously in more primitive times if you had told people that a creative intelligence used specific vibrations to form the building blocks of life and matter, they would have looked at you in total bewilderment, and the tyrants of the church would have burned you at the stake. So, for the uninitiated John 1:1 simply says, "God is the Word." The bible is in fact a huge Hermetic parable from end to end, and attempts to read it literally will only drive men insane or lead to division into hundreds or even thousands of competing sects, and ultimately religious warfare. Next we will dig into the meat of the secret teachings and ancient science. Let me begin by quoting some Hermetic philosophers, both ancient and modern. From John Mitchell, author of the New View Over Atlantis, "Traditional creation myths state that the Creator of the Universe first laid out patterns of number from which all else proceeded. Sacred geometry and number were used in the design of ancient temples in order to attract the creative powers unique to a pattern, and because the effect of ritual words, songs, bells, gongs and so on, when sounded within the confines of a building so constructed had irresistible effects on the human "mind."

From the book Nature God and Man by William Temple, Macmillan Press 1934, page 149, "We discover that the universe shows evidence of a designing or controlling power that has something in common with our individual minds." Plato and Pythagoras, both initiates, (at least one of whom was initiated inside the Great Pyramid), in response to questions about the source of all true knowledge repeatedly answered, "All is number." John Anthony West, author of The Serpent in the Sky, has stated, "In ancient civilizations a class of initiates had precise knowledge of harmonic laws. They knew how to manipulate them to create the precise effect they wanted. They wrote this knowledge into architecture, art, music, paintings and ritual. It is evidenced in Gothic cathedrals, vast Hindu temples, the marvels of Egypt, the seven wonders of the ancient world and other

sacred works. They had a powerful effect on men because they knew exactly what they were doing; it was control and power through complex sensory manipulation."

It takes no genius to conceive of the same knowledge being put to use by the unscrupulous. Dances, chants, buildings, music and all manner of sensory stimulation could be devised that would reduce targeted individuals or populations to helplessness. There are indications that this is when the first Jews came into being. Somewhere around BCE 400-500 in old Babylon a renegade and unprincipled group of initiates into the secrets of the ancients hatched up a conspiracy to rule the world using the Hermetic wisdom, usury and the basest instincts of man. The Jews, however, were not the originators of the mythologies of either the Old or New Testaments. They and the church have, however, added to, perhaps subtracted from, and even changed or perverted the original writings of both Testaments. The nonsense about circumcision is an example.

Exhorting love of one's enemies and hatred of women and sex are New Testament insertions. We could debate endlessly whether the stories of Joseph and of Esther were inserted by Jews to brag of their blueprint for world conquest, or by Aryans in order to expose the Jewish conspiracy. When attempting to judge the bible writings without knowledge of Hermetic coding devices, one simply has to acknowledge that the content has been in the hands of Jews and Judeo-Romans for many centuries.

On the other hand for an initiate into the mysteries, all the old wisdom stands out as clearly as sunlight through the gematria, number codes and mythology. An example would be the one plus twelve scenario found in all the Mystery religions: Odin with twelve Drottars or chief priests, Jesus with twelve apostles, Solomon with twelve tribes of Israel. Clear back into the Hittite and Sumerian mythologies we find the same pantheons. In all cases they represent the Sun and twelve signs of the zodiac, as well as the Sun Square and the twelve divisibles of its total value.

A Hermetic philosopher will, also, immediately recognize Jonah's three days in the belly of a whale and Christ's three days in the tomb as coded discussion of the ritual terror that initiates are subjected to in order to conquer self ego and open the mind to higher enlightenment.

In Norse mythology Odin hangs nine days on a tree, while in Christian mythology Christ hangs on a wooden cross. Both speak of conquering the material plane and entering the spiritual plane. David, the most repeated name in the Old Testament and a figure of war is associated with the War God Mars and the Magic Square of Mars. David slays a giant with a magic weapon. Thor is his counterpart in Norse mythology, also associated with the War God Mars and he, also, slays a giant with a magic weapon.

Decoding and comparison of the myths is a fascinating occupation and we could fill many volumes, but this is not the place for endless detail. Lest the reader get the mistaken idea that the mystery schools were Semitic or Oriental rather than Aryan, let me conclude this chapter with a quotation from Clement of Alexandria, circa 150-215 CE. Clement was a theologian of the early Christian Church prior to the formation of Judeo-Christianity under Constantine. Clement wrote, "The Pythagoreans took their philosophy from the Gauls and other barbarians." Pythagoras, of course, lived more than 500 years

before the Christian era began and the Gauls were from central Europe. So, we see that the ancient wisdom was indeed Aryan.

Chapter Two - The Seven Seals

Now we will discuss the Seven Spirits of God, also termed the Seven Seals of Revelation. Every ancient and Mystery religion made constant reference through Hermetic coding to the first seven magic squares. The seven wonders of the ancient world were constructed on geometry taken from these squares. Listed here are the seven wonders, the squares with which they are associated and identified by their planetary association.

The Colossus at Rhodes Square of the Sun Temple of Diana at Ephesus Square of the Moon The Tomb of Mausolas Square of Venus The Great Pyramid Square of Mercury Towers and Gardens of Babylon Square of Mars The Statue of Jupiter at Olympus Square of Jupiter The Lighthouse of Alexandria Square of Saturn

The reader should be aware that in recent times Jewish cabalists have attempted to substitute the fictional temple of Solomon for the Lighthouse of Alexandria and Saturn. Next we shall begin to examine these ancient mathematical devices on which both ancient religions and the King James Bible were formed. But first, here is another quotation from John Mitchell, author of the New View Over Atlantis. "The chief cosmic intervals and numbers together with the ratios that determine the patterns of life are related to each other through the first seven magic squares. Within the crystalline structure of these figures is stored the universal scheme."

MERCURY

Now that you have seen them, we will shortly begin to decipher, but first let me add some statements of other philosophers about number patterns and the Creator. Then, too, I shall list some verses from the King James Bible which survived the persecution of the Gnostics. From Nicomachus of Gerasa, circa 100 CE we read, "The universe seems to have been determined and ordered in accordance with number, by the forethought and the mind of the Creator of all things; for the pattern was fixed like a preliminary sketch by the domination of number, preexistent in the mind of the world creating God."

From *Mysteries of the Mexican Pyramids* by Peter Tompkins, Harper & Row 1976, we read on page 285, "The Maya came to the mathematical certainty of a cosmic mind." And

from The Geometry of Art and Life by M. Ghyka, Sheed & Ward 1946, we read on page 118, "The link between Pythagorean and Medieval Occultism is evident in the following extract from Agrippa's Kabbala. Boetius has said: 'Everything which from the beginning of things was produced by nature seems to be formed according to numerical relations issued from the wisdom of the Creator. Numbers are the nearest and simplest relations with the ideas of divine wisdom. The power of numbers does not reside in their names, nor in the numbers as counting elements but in the numbers of perceiving knowledge, formal and natural. The one who succeeds in linking usual and natural numbers to divine numbers will operate miracles through numbers.' " Next we see a few of the many obscured references to the seven magic squares in the King James Bible.

Zachariah 3:9 Seven eyes upon one stone Zachariah 4:10 Seven eyes of the Lord
Proverbs 9:1 Seven pillars of wisdom

Revelation 4:5 Seven lamps of fire which are the seven spirits of God Revelation 5:6
Seven horns and seven eyes are the seven spirits of God Revelation 5:1 A book sealed
with seven seals Revelation 5:5 And one of the Elders saith unto me, Weep not: Behold
the Lion of the tribe of Judah, the root of David, hath prevailed to open the book and to
loose the seven seals thereof.

We will begin our exploration of the spirits/seals with the fourth or center of the seven figures called the Sun Square. It is comprised of all the numbers 1 through 36, which when added together in this manner, $1+2+3+4+5$ etc., through 36 will total 666. The 36 numbers are arranged in such a way that each column of six numbers add to 111 or 1/6th of 666. The second most visible of the near limitless phenomena that results is that every number becomes part of a square or rectangle of four numbers which total 74. Examples are the four corners ($6+1+36+31=74$), or a rectangle ($7+30+25+12=74$) and of course the center four ($16+15+22+21=74$). In the old religions 74 and 666 were interchangeable as Solar and Sacred numbers. When Sir Francis Bacon and others formed the structure of the King James Bible, added letters to and set in order the letters of the English alphabet and formulated the names associated with Christianity in the English language, it was done in conformity to the ancient and sacred number canon. In Chapter 1 the number 74 is represented in the words Jesus and God. Shortly we shall see that the holy names are designed to both conceal and accomplish far more than just 74.

Do not be dismayed by the connection between the number 666 and the holy names through the Sun Square and the number 74. Instead learn to read the authorized version English language King James Bible with the eyes of an adept in the mysteries. The famous verse, Revelation 13:18 reads in part, "count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six." A Hermetic philosopher would look at that sentence and conclude the following: 1) There are two entities, a man and a beast, both associated with the number 666. 2) Since 666 is stated, there must be something else to count that will in turn relate to 666. 3) Since 666 is one of the seven spirits of God the Creator, and the beast is evil, then the beast must usurp the number of the man.

The philosopher would then read the rest of Revelation and conclude that the beast was a political/economic system, sometimes even symbolized as female, or the Whore of Babylon. Finally, the philosopher would look for something to count as instructed. In this case the number of letters in the verse Revelation 13:18. In the tradition for coding

secrets the Hermetic philosopher is trained

to do with a number what can be done with it and see if the result seems meaningful.

Other things the philosopher will look for as pointers are the oldest, the youngest, the first, the last, the center, deliberate error, the most repeated and anything that creates a phenomenon. In the case of Revelation 13:18 we find it has 125 letters as we count the number of the beast. A three digit number can be scrambled six possible ways. When the

six are added together, the result will be a multiple of 111 and thus a multiple of the columns of the 666 Sun Square. The number 125 scrambles into 152, 215, 251, 512 and 521. Add the six together and the result is 1776, the date of the American Revolution, the birth of the beast. Whether the numbers are coincidence, prophecy or a coded plan, I

leave to the reader to speculate. Next let us look at a canonical or sacred number as defined by Hermetic Philosophy, and as a function of the magic squares. We will, also,

see how such a number relates to the solar system, to the King James Bible and to certain calendars. From the New American Encyclopedia under the heading Calendar, I quote, "about BCE 432, the astronomer Meton discovered that 235 lunar months fitted exactly into 19 years (the Metonic cycle), this becoming the basis of the modern Jewish and ecclesiastical calendars." Please bear in mind that relationship of 19 to the moon and both Jewish and Christian ecclesiastical calendars as we proceed.

In his book on the high wisdom of ancient Egypt, John Anthony West points out that 19 was the sacred number of both Egyptian and Mayan art, science and religion. 19 and 2×19 or 38, and 102×19 or 1938 are in fact the most sacred or canonical numbers

concealed in the King James Bible. In traditional order you will find that Psalms, by far the longest book and containing the most Hermetic messages as in Psalm 119, is the 19th book of the bible. In traditional order, the 19th chapter of the bible is Genesis 19

and has 38 verses, forming 1938. In alphabetical order, the 19th book of the bible is Haggai with 38 verses, forming 1938. Let A=1, B=2, C=3 and so on. Here is the name of Jesus Christ:

J E S U S C H R I S T
10 5 19 21 19 3 8 18 9 19 20

The parable of Methuselah is an excellent way to expose hermetic coding. Methuselah is made to be the oldest man that ever lives. Hermetic coding uses pointers to say, "Look here!" Pointers may be the longest, the shortest, the oldest, the center, the first, the last,

deliberate error or whatever causes a phenomenon. Methuselah, being the oldest, becomes a double pointer, for age implies wisdom. An initiate in the mysteries, if seeing the bible for the first time, would note immediately the masses of numbers having nothing to do with moral tenets and know that it was hermetic coding, or what Jews call "cabalism." In Genesis 5 we find that Methuselah lives 187 years and has a son. Then he lives an additional 782 years and he lives 969 total years. Since 969 is exactly half of that

canonical number 1938, then naturally by adding the three numbers $187+782+969$ we get the major number 1938.

The numbers with a message witness themselves to prove they are not coincidence. The 969 years of Methuselah are divided into two periods, 187 years before his son and 782 after. That is double entendre telling you to divide into. So divide 969 into 187,782. The dividend rounded to the nearest tenth is 193.8. The story continues. In Luke 3 is a complete list of the Patriarchs from Jesus back to Adam. Methuselah is word 969 in the chapter and his name is changed to MATHuselah.

The last half of the name Methuselah is "Selah," a hitherto mysterious word that appears exactly 74 times in the KJV, as another tie between 1938 and 74. Selah is found predominately in Psalms, the 19th book commonly associated with David. Most importantly, Selah is a signature at the end of Psalm 46. The author of the KJV, Sir Francis Bacon, used as his cipher signature the numbers 666 and 33. That is why you will find 33 words in the center chapter and shortest chapter of the bible, Psalm 117. Now count 666

chapters backward from the end of the bible (Revelation 22). You will find that the 666th chapter from the end is Psalm 46. Count 46 words from the beginning of the psalm and the word is "shake." Exclusive of Bacon's signature word "Selah," you will find that the 46th word from the end of the psalm is "spear." And that is how we are told that Sir

Francis Bacon wrote the works falsely attributed to Shakespeare and that he is responsible for the KJV of the bible. Next look at a way one of the patterns of the Creator relates to both the cosmos and the bible. Remember the 19 year Metonic cycle of the moon. Look now at the largest of the squares called the Square of the Moon. It is made up of all the numbers 1 through 81 (or 9^2), which add to 3321. They are arranged as are all the squares, so that every column in any direction adds equally. The moon square columns add to 369. All but the center 9 numbers

form symmetrical squares or rectangles with common digit configurations of 19 in opposite corners and 38 in all four corners. For ease and brevity, we will look at the four outside corners of 37 opposite 45 and 5 opposite 77. Add the digits, $3+7+4+5=19$ and $5+7+7=19$. So naturally the sum of the digits is 38.

Other squares, especially Mercury, form the 19-38 configuration in other ways. In fact in the Square of Mercury you will find 19 and 38 contiguous in the sixth vertical column.

The geometric configurations and mathematical formulae concealed within the seven spirits/seals are almost infinite, and the King James Bible forms through code wheels and gematria a physical representation of the seven figures. Thus again, there is a Hermetic meaning for John 1:1, God is the Word. A reason for the admonition at the end of Revelation to not add or subtract from this book of prophecy, is because addition and subtraction are mathematical functions. We are told to not alter, not change, not edit, not modify, not switch, not substitute, not transpose or any other such possibilities.

Next let's explain another device used to code the ancient wisdom by the initiates. It is called a Hermetic number pyramid. As a foundation, let us return to an earlier statement. Vocalized letters are vibrations and a word or a group of letters is a vibrational complex.

The initiates who created our alphabets and root words of languages had precise knowledge of the effect of a constantly repeated word on the human mind. Thus songs and chants were scientifically created for control through sensory manipulation. But the most careful formulation was given to the names of the Gods. Have you ever pondered why born-again-Christians appear almost in a trance state, particularly as they recite the names Jesus and Jesus Christ? Perhaps there is a reason. According to the Secret Teachings, by Hermetic reduction we can decipher the reflection of the sacred numbers and complimentary vibratory power in a name. Few if any names have been or could be devised as a reflection of the magic Squares as that of Jesus and Jesus Christ. Let us see how Hermetic reduction and decipherment are accomplished. Remember that Sir Francis Bacon and other initiates formed the modern English alphabet and thousands of root words, including those used in religion and politics by deliberate design and with complete knowledge. For example, in earlier times Jesus was Yashua and God was Yahweh in the older languages. Jesus and Jesus Christ were Hermetic creations, although in some respects they echo older formulations.

A number pyramid is formed by adding contiguous digits until getting a single digit, then placing it above and between the digits of which it is a sum. An easy example is 21. Add 2+1 and place the 3 above and between the original two digits:

$$\begin{array}{c} 3 \\ 2 \ 1 \end{array}$$

If the digits add to more than one digit, then add twice. Example, 78, 7+8=15, then 1+5=6. So place the 6 above as shown.

$$\begin{array}{c} 6 \\ 7 \ 8 \end{array}$$

To make a pyramid from a word simply substitute the appropriate number for each letter. Remember, English language gematria is A=1, B=2, C=3, etc.

An easy example would be the word "he." H is the 8th letter and E the 5th letter of the alphabet. So, the pyramid of "he" is as shown.

8+5=13 and 1+3=4

$$\begin{array}{c} 4 \\ 8 \ 5 \\ H \ E \end{array}$$

Shown next are the Hermetic pyramids of Jesus and Jesus Christ.

There is of course far more to the number pyramids, especially larger ones, but here are some basics. In the number pyramid of Jesus Christ, note 7 digits and 4 letters on each side of 1938 in the base. Note 7 levels culminating in the 4 digits of 1938. This creates a relationship of 74 to 1938. Beneath the upper 1938 you will see the digits: 6-4-5-7-1. In Revelation you find the phrase four times, I am Alpha and Omega, reduce Omega to single digits and you will find that series 6-4-5-7-1, which creates 1938.

1 9 3 8
 6 4 5 7 1
 15 13 5 7 1

O M E G A

I have shown more detail of the number structure of the King James Bible in other works, so I will cut this short with two more examples. The 66 books of the bible are code wheels to be counted over and over, as are the chapters, verses, and words. It ties together the numbers 666, 74 and 1938. Count the 66 books 10 times, or $10 \times 66 = 660$. Then count to the sixth book. It is Joshua. Joshua has a value of 74.

J O S H U A
 10 15 19 8 21 1 = 74

So, Joshua represents both 74 and 666 of the Sun Square. Turn to Joshua 19:38. You will find it speaks of 19 cities and nineteen is word 666 in the chapter. The chapter has 51 verses, because 51 is a center divisible of 1938 and $51 \times 38 = 1938$, as will be explained in the chapter on Solomon's Temple. We shall complete this chapter by showing how the shapes into which

nature forms can be given number through Magic Squares, and why the biblical David like other "War Gods" is associated with Mars. As you probably know, every cell of a honeycomb is formed in hexagons, the center of a hexagram or Star of David. Snowflakes form into hexagrams. Many flowers form perfect pentagons. A special number sequence called the Fibonacci Series is found from the spirals of the Galaxies to budding ferns and sunflower seeds. All nature seems to evidence an intelligent Creator through geometry and number. Thus secret societies still refer to God as the grand geometrician/mathematician of the universe. The great arcanum of magic has always been that numbers and geometry which reflect nature's patterns, and deciphered through the seven spirits of God, will draw the creative powers. Thus occultists use hexagrams and pentagrams, and such geometry is found in both the Israeli flag and the Pentagon, home of the World Zionist police force. Hexagons such as honeycomb, and hexagrams such as the occult figure in the Israeli flag could be given the number 741, because by connecting the digits 741 around the perimeter of a reduced Square of Mars it forms the two triangles of the Star of David, also, called the Seal of Solomon.

MARS

Reduced to single digits

illustration #6

First look at the complete seven Squares (shown earlier in chapter 2) and the unreduced Mars Square. Note that the top left number is eleven. The $1+1=2$. So we place a 2 in that spot in a reduced Square of Mars, and continue until we complete the 5 by 5 Square. As stated, connecting the perimeter digits of 741 forms the Star. 741 is in fact both the number of David and a major occult phenomenon. Inside the triangles you will find the dates for the American revolution fomented by those who use the star. Top center inside

the star is 7 then 4. July is the 7th month, and the 4 represents the 4th day, which is the date of the Declaration of Independence 1776. Inside the star patterns are, top to bottom 741. Bottom to top is 147. Left to right is 543. Right to left is

345. Add the four together and get 1776, the year of the American Revolution.

$741+147+543+345=1776$ Now go back to the Great Seal(Chapter 1), and notice that the 13 stars above the eagle form the Star of David. Here are the Roman numerals for 1776 as they appear on the base of the pyramid on the Great Seal. They conceal both 741 and 666.

M	D	C	C	L	X	X	V	I
1000	600	100	60	10	6			

Remove the 7th and 4th and 1st numerals and the remainder is 666.

An alert scholar might notice that the Star of David is composed of two triangles formed by 741. Then $2 \times 741 = 1482$. If you add the 12 divisibles of 666 shown around the Sun Square, you will get 1482. By no accident there are 1482 words in First Kings chapter 7, the completion of Solomon's Temple. Nor is it by accident that the vertical or horizontal patterns inside the star add to 888. $741+147=888$. $543+345=888$. Remember Jesus the Ogdoad has a value of 888 in Greek, and Jesus is called a "Branch" of David throughout the King James Bible.

Chapter Three - The Temple

No discussion of the Mysteries would be complete without time spent on the symbolism of the Temple. In all the ancient religions the "Temple" was a Hermetic code for perfected man. In modern terms it would not be unfair to liken man to a genetic experiment on the part of the Creator. When Genesis says "let us create men in our image," it refers to the universe and its cosmic mind incarnating in man. Those of you who have taken formal martial arts training know that the body is referred to as the Temple. Masons and students of Masonry know that Solomon's Temple is a major symbolic and ritualistic device. The Temples of ancient religions were onstructed to reflect the sacred numbers and geometry of nature and of the seven stars or seals. That the equation $88^2 = 7744$ is found in the Song of Solomon, and that a major Hermetic device in the King James Bible is Solomon's Temple is not coincidence, for Solomon is an allegory for wisdom through number. Solomon represents the Sun and the 666 Sun Square, inside the zodiac circle and inside the corresponding 12 divisibles of 666. Solomon is the Sun inside the 12 tribes of Israel, which are the 12 signs of the zodiac.

Turn

to I Kings 10:14 and read that Solomon extracts 666 talents of gold from neighboring kingdoms. In II Chronicles 9:13, this statement is repeated. In Hermetic coding "gold" represents the sun and the Sun Square. By now you should begin to realize that the words

of the bible mean virtually nothing unless combined with number and the wisdom of an initiate. The words are filler, not history.

Here is how the name Solomon was constructed in English. SOL-OM-ON, Sol is Latin for the Sun, Om is Hindi for the Sun, and On is Egyptian for the Sun. Symmetrically spaced is the only vowel, O, three times, because O is the 15th letter.

$$\begin{array}{c} 15 \ 15 \ 15 \\ 1+5= \ 1+5= \ 1+5= \\ 6 \ 6 \ 6 \end{array}$$

In the King James Bible the building of the temple in its coded form is found in the 11th book, because 11 and multitudes of 11 (like 33 and 88) are part of the coding system. The Temple is begun in I Kings 6 and completed in I Kings 7. Exclusive of Psalms 117 there are 1188 chapters in the bible, 1188 is 33×36 . Psalm 117 is the shortest chapter and center chapter in the bible, with 33 words symbolizing the 33 degrees of Masonry, the 33 years in the life of Christ, the 33 generations from Adam to David, the 33 vertebrae in the human spine, etc. Count 9 sets of 33 chapters from the beginning and come to the start of the Temple in I Kings 6. Psalm 117 stands as the zero point, count 9 sets of 33 backwards and come to the completion of the Temple in I Kings 7. Solomon or 666 is tied to 1938, or the Temple. Here are the 16 factors or whole number divisibles of 1938.

$$\begin{array}{c} 1 \ 2 \ 3 \ 6 \ 17 \ 19 \ 34 \ 38 \ 51 \ 57 \ 102 \ 114 \ 323 \ 646 \ 969 \\ 1938 \end{array}$$

Note that the center two factors are 38 and 51. $38 \times 51 = 1938$. Now note I Kings 6, the beginning of the Temple has 38 verses. The completion of the Temple in I Kings 7 has 51 verses. The two verses, I Kings 6:38 and 7:51 have 88 words, representing $88^2 = 7744$ and other 88's placed in the King James Bible, as well as this phenomenon:

$$\begin{array}{l} \text{Add all the numbers: } 1 \text{ through } 1 = 1 \\ \quad 1 \text{ through } 9 = 45 \\ \quad 1 \text{ through } 3 = 6 \\ \quad 1 \text{ through } 8 = +36 \\ \quad \quad 88 \end{array}$$

This would be an appropriate place to divert from the Temple for just a moment and comment on the statement, "I am Alpha and Omega," found four times in Revelation. We have commented on John 1:1, "God is the Word." We know the bible is called the "word" and God is "Alpha and Omega," hence, GOD = WORD = ALPHA and OMEGA. A Hermetic philosopher would immediately assume a numerical relationship found 4 times between parts of Genesis or Alpha, and Revelation or Omega. There are 4, but in the interest of brevity, we shall only look at the easiest. Genesis 1:1 the first verse in the bible has 44 letters. Revelation 22:21 the last verse in the bible has 44 letters, for a total of 88. Now let's look at the famous pillars of Solomon's Temple found in I Kings 7:21. First note that the verse has 144 letters. The pillars are named Jachin and Boaz. They are considered important in Masonic symbolism. We will reduce them to gematria, (A=1, B=2, C=3 ,,,).

J A C H I N B O A Z
10 1 3 8 9 14 2 15 1 26

You will note that the exact centers are 38 and 51, while the 38 is bracketed by 19. Then of course 38×51 is 1938, 38 and 51 being the center divisibles of 1938 and their product being 1938. The entire bible is in fact based on this number often coded through a device called the "Key of David," found in Isaiah 22:22 and Revelation 3:7. 1938 is the highest canonical number. Look again at the 16 divisibles shown earlier. Add the digits in the 16 divisibles and get 144, which is why 144 is found so often. The 144,000 Saints of Revelation 14 for example are only a way to code 144. Add a total of the 16 divisibles and get 4320, which is the number of degrees in 12 circles and is the reason the St. Mary's chapel at Glastonbury, England was made of twelve circles. 1938 is often shown in sets of three, because a twelve digit number made of three consecutive 1938's or 193819381938 is evenly divisible by every major number around the Sun Square, by their total of 1482, which is, also, the number of words in I Kings 7, the completion of Solomon's Temple, and by 741 which forms the Star of David in the Square of Mars. In conclusion to this chapter and before delving into the esoteric or metaphysical teachings of the Mystery religions, let me sum up what must be understood about the bible, and particularly the King James authorized English version. The real truths are hidden in coding devices. If for example you read that Ezekiel saw four wheels within wheels, note that the Books, Chapters, Verses and Words form code wheels within code wheels. I have shown this in detail in other works. Understand that with the exception of passages pointed to by Hermetic number codes, the WORDS are not the message; they are filler. And understand that the numbering system is designed to ease decoding of the text. The cabalistic research by the Jews is an attempt to discover knowledge known by Aryans from many thousands of years ago until the time of the Reformation, and now partially at least by you.

Chapter Four - 666 UNVEILED

...Presented with contempt for the priestcrafters who declare with the infinite arrogance of the ignorant their 666 fantasies.

Shown in chapter 2 is an ancient mathematical device used by Secret Societies, Hermetic Philosophers, Occultists and Kabalists for thousands of years. It is called the "Magic 666 Square of the Sun." The Sun Square is comprised of each of the numbers 1 through 36, which, when added together, total 666. The 36 numbers are arranged in 6 rows and 6 columns. The sum of each row, column and diagonal totals 111, or 1/6 of 666. The bible is comprised of 66 books; three of the books have 6 chapters, to encode 666. The book of Isaiah has 66 chapters; three of the chapters have six verses to encode 666. Of the 66 books of the bible, 39 are Old Testament and 27 are New Testament, as $39^2 + 27^2 + 66^2 = 6606$, to encode 666. The numerical values assigned to the 12 signs of the

Zodiac are the 12 factors of 666. The most basic pattern or function of the Sun Square is the number 74, which is called by Adepts in the Mystery Religions the "Divine number of the Creator."

The Sun Square is the 4th of 7 "magic squares." In English language gematria (A=1,B=2,C=3, etc.) we have already seen that the word "GOD" mirrors the Sun Square:

$$\begin{aligned} G &= 7 \\ O &= \text{the sun inside the Zodiac} \\ D &= 4 \end{aligned}$$

The 666 Sun Square contains 9 squares and rectangles whose four corners total 74, as $9 \times 74 = 666$.

Concentric Squares:

$$\begin{aligned} 6 + 1 + 31 + 36 &= 74 \\ 11 + 8 + 26 + 29 &= 74 \\ 16 + 15 + 21 + 22 &= 74 \end{aligned}$$

Rectangles:

$$\begin{aligned} 7 + 30 + 12 + 25 &= 74 \\ 19 + 24 + 13 + 18 &= 74 \\ 32 + 35 + 2 + 5 &= 74 \\ 3 + 34 + 4 + 33 &= 74 \\ 14 + 23 + 17 + 20 &= 74 \\ 27 + 28 + 9 + 10 &= 74 \end{aligned}$$

The ancient mythology of a Sun God, born at the winter solstice, resurrected near the vernal equinox, worshipped on Sun-day, whose name demonstrates the Kabalistic number canon is a certain sign of a hermetically created Mystery religion. "Jesus" equals 74.

$$\begin{aligned} J &= 10 \\ E &= 5 \\ S &= 19 \\ U &= 21 \\ S &= +19 \\ 74 & \end{aligned}$$

"Just coincidence!" cry the believers, as their eyes glaze in irrational denial.

Chapter Five - The Mysteries

While the mystery religions disseminated by initiates throughout the ancient world used different mythologies and/or different names in different languages for the Gods and Goddesses, certain structures appear to have been identical. One device common to all seems to be the 1 + 12, representing the Sun, the Sun God and the Sun Square, inside the zodiac and inside the 12 divisibles of 666. Another is the use of a myriad of names to code and represent the seven magic squares and a common teaching that they reflect the mind of the Creator. The mythologies were used both to represent the powers of the Creator evidenced in nature and personified as the Gods and Goddesses, as well as to instill the folkish attributes considered necessary at a particular era of history. If a nation was threatened, the spirit of Mars or Thor, or King David was needed. If a soothing spirit was advantageous, then Freyja or Balder or Jesus or Buddha was promoted. Cycles of civilizations and cultures were recognized and therefore a single rigid eternal dogma was discouraged. Circumstances of climate, proximity to alien peoples and other factors called for different mythologies as guides in Northern Europe, Asia Minor and Southern Europe.

Every person was free to choose his own station in life and level of intellectual pursuit.

The Mysteries were available to all of determination, ability and good character.

However, to become an initiate or an adept, sometimes called a priest, was a very, very difficult task. It could take up to 20 years of study, self-denial and meditation before a prospect was considered worthy. Even after so much preparation the novice had to endure an initiation process designed to instill the most extreme terror that could be designed by man. The process was structured to destroy personal ego and thus open the mind to higher enlightenment. To the Adepts or creators of the mythologies, the Supreme God, Creator and originator of all things was distinctly separate from the plural or lesser Gods and Goddesses who served a dual purpose. They both represented the powers of the Creator as evidenced in nature, and served the tribe or race as guides through the words attributed to them by the adepts.

Through a form of philosophic logic, justification was found for a teaching of reincarnation by the Mystery religions. It was for example observed that two children with the same parents and the same up-bringing might exhibit completely different traits. One being reflective, altruistic and above all of mature character, while his sibling was anything from a giddy fool to a criminal. This was attributed to maturity gained from past incarnations and influences of the cosmic mind evidenced through the zodiac. For the uninitiated masses, the named Gods, being designed and created by men for purposes either constructive or destructive, were blended with the Supreme Creator to provide authority. Thus Norse Woden/Odin is blended with All-Father, or a Father/Son relationship was invented for mythology. Endless arguments have and unfortunately will probably continue to be carried on over the ethnicity of the First Christians. History being a fable and the Church having had so many centuries as the only custodian of records, it is futile to debate with words. But an initiate knows the truth through the records preserved in coded devices.

An example is the fish symbol used by the first Christians. It is actually a figure of sacred geometry called Vesica Piscis. It comes from two circles drawn so that the circumference of each crosses the center point of the other.

As in all Hermetic parables and coding it has multiple meanings. It is the "Holy Womb" demonstrating mathematical principles evidenced in nature and therefore showing the mathematical/geometrical mind of the Creator. Probably, also, it represents the buttocks, womb and vagina of a woman as a fertility symbol. Most know that the cross was a pagan symbol long before it

was made a symbol of Judeo-Christianity in 325 CE by Constantine and fellow conspirators. The first Christians, regardless of race were in fact a society of truth seekers and initiates into the Mysteries. Given the indicators of history as most decipherable and the accomplishments of the White race today, we can assume they were probably Aryans.

However, for nearly 1700 years the church and its Protestant step-children have been Judeo-Xian poison.

Furthermore, a people and particularly the White race cannot share Gods or religions with other races. Among other things it destroys the senses of uniqueness and value necessary to survival. The best religion for our folk today is almost certainly Wotanism. Wotan is the best blended representation of Allfather, the Creative force, and folkish needs for the White race today. Wotan awakens our racial soul and genetic memory. He stirs our blood.

THE PYRAMID PROPHECY

Introduction

For thousands of years men have gazed in awe at the majestic Great Pyramid at Giza in Egypt. Its size, its angles, its perfection in original form, its placement, its measurements, and its precise alignment with the earth's latitudinal and longitudinal lines, have provided material for hundreds of books and endless speculation. And perhaps nothing has provoked more debate than the missing capstone.

Perceptive scholars have long noted the similarity to the pyramid on the Great Seal of the United States. The capstone is separated from the body of the pyramid, thus exhibiting, as does the Great Pyramid, a flat truncated top, as well as an implied completed structure when the capstone is lowered into place.

Biblical scholars have additionally long pondered scriptural references to a missing head stone. For example, Psalms 118:22 reads: "The stone which the builders refused is become the head stone of the corner." Other scholars have wondered if the reference to "an altar to the Lord in the midst of the land of Egypt" in Isaiah 19:19 might refer to the Great Pyramid.

This document will prove, beyond dispute, under the iron clad laws of mathematical probability, that the Great Pyramid at Giza, the Great Seal of the United States, and the hidden secret coding system of the English language authorized version, King James Bible (KJV), constitute the identical prophecy.

On the Great Seal, within the capstone, over the pyramid, note the Egyptian eye of Osiris. In Egyptian Hermetic religion, Osiris, the major God is divided into 14 parts. In Gnostic preservation of Egyptian mysteries, God is called "The Word". By extrapolation we might infer a concealed reference to 14 words.

THE GREAT SEAL OF THE UNITED STATES OF AMERICA

Now note that the capstone over the pyramid, when lowered into place, becomes the 14th level of the structure. The number 14, as we shall see, is a major component of the prophecy.

Over the eagle on the reverse side of the Great Seal are 13 stars, each having five points. The astute observer however will note the 13 stars are arranged to form a 14th star, a six pointed star known as the Star of David.

The reader of this document will see, beyond dispute by anyone whose ability for rational thought has not been destroyed by political, religious, or other dogma, an incredibly precise prophecy, encoded in the Great Seal, in the Great Pyramid, and in the hidden structure of the K.J.V. Bible.

The prophecy is of a man named David, to be conceived on the 25th of January, 1938, and to be born precisely 280 days later (the human gestation period), on the 2nd of November, 1938, the 11th day of Scorpio.

This man was to become famous world wide for political and religious doctrines known as 14 Words and 88 Precepts. This man, named David (see again the 14th star, the Star of David over the eagle in the Great Seal), would come to oppose an ancient conspiracy against civilization and against civilization's creators.

Particularly in the Bible (K.J.V.), the prophecy is artfully concealed, for in earlier times, any deviation from rigid dogma of either Catholic or Protestant rulers brought painful retribution ranging from unimaginable tortures of the inquisition to being burned at the stake.

The K.J.V. prophecy, encoded circa 1600, was then shepherded down through the centuries by adepts of uncorrupted freemasonry, with the coding clarified as it became safer to do so. We shall see that the Great Seal was designed by adepts of the same secret Masonic society.

The reader should also be aware that prior to circa 1600 A.D. the English language existed in only a primitive form. Around 1600, Sir Francis Bacon, who was the designer of the original K.J.V. coding, along with the British Royal Society, added letters to the English alphabet, set the letters in sequence, and formed thousands of new words, including many used in the K.J.V. Bible. Prior to this era the major Christian deity was called Joshua, pronounced Yashua.

It is necessary therefore to recognize that the words Jesus and Jesus Christ are secret number codes. Only in the minds of the uninformed do they represent the earlier names for what Christians believe to have been an incarnate God.

With that knowledge we can begin showing the prophecy by demonstrating why the two pyramids, one at Giza in Egypt, the other on the Great Seal, have truncated (flat) tops. It is to tell of figures called Hermetic Number Pyramids. Many of the messages in the K.J.V. are encoded within such pyramids.

Pyramid Prophecy Part 2

The number of the Man is also found in his name as a number pyramid. The number pyramid of the word "David" runs forward and backward from a center point and demonstrates both 666 and his birth year, around the six pointed Star of David, along with 74, the first function of the 666 Sun Square.

Here it should be noted that the exact angle of the Great Pyramid is 51 degrees, 51 minutes from horizontal because 5151 forms this number pyramid:

The equation 88^2 equals 7744 is concealed in the divisions of the verses in the Bible book called The Song of Solomon. The first chapter has 17 verses, the second has 17 verses, the third has 11 verses, the fourth has 16 verses, the fifth has 16 verses, the sixth has 13 verses, and the seventh has 13 verses.

17 17 11 16 16 13 13

$1+7=8$ $1+7=8$ $1+1=2$ $1+6=7$ $1+6=7$ $1+3=4$ $1+3=4$

88^2 7744

The name David appears once in the Song of Solomon as word number 1056 in the equation, because $88 \times 12 = 1056$. And because by adding 1056 to each side of the equation we get the prophecy:

	882	7744	
	+1056	+1056	
BIRTH YEAR	1938	8800	88 PRECEPTS

The 7 chapters forming the equation have 2298 words. An additional chapter with 14 verses has 360 words. Because 2298 minus 360 equals 1938. The 14 represents the 14 Words.

Here is the pyramid of David Lane, the full name of the Man of the prophecy, combined with his birth year of 1938:

In the Book of Daniel, Chapter 5, appear seven emphasized words whose true meaning is disguised with irrelevant rhetoric. The words are mene mene tekel upharsin mene tekel peres. They are designed to be written with staggered starting points like one side of a pyramid.

M

N E T
E N E U
E K P M
E H E T
L A N E P
R E K E
S E R
I L E

Daniel is an anagram; remove the "I" and the "D", I.D., and the letters
LANE remain:
I. D. LANE

Next we will look at the "Key of David" found in Revelation 3:7. That
key is the number 749, which represents $74 \times 9 = 666$, the Magic Square of the
Sun. First note that there are 1189 chapters in the Bible because they form
a code wheel. Count all 1189 and start over. When you get to 749 it will
total 1938. $749 + 1189 = 1938$.

The name David appears three times in Revelation. The first time in
Chapter 3:7, which references the "Key of David." He also appears in Chapter
5:5 and in Chapter 22:16. There are 1666 words in the three chapters to
encode 666. Count to David in each chapter and the total words are 749,
because $74 \times 9 = 666$. Count to David in each verse. He is word 28 and 22
and 24 for a total of 74. They also form the below pyramid:

The Great Pyramid is found in Isaiah 19:19, because $19 + 19 = 38$. It is
called an altar to the Lord in the land of Egypt. Count 38 verses from

Isaiah 19:19, which corresponds with the 38° from vertical in the pyramid angle. It is Isaiah 22:9, and contains the word David the first time after the pyramid reference. Continue counting to the 51st verse from Isaiah 19:19, corresponding to the 51° from horizontal in the pyramid angle. It is Isaiah 22:22, the second time David appears. This verse references the Key of the House of David, which is the Great Pyramid, Solomon's Temple, and the Great Seal of the United States.

The two verses, Isaiah 22:9 and 22:22 are a key. Count to David from the front of each verse. The total words are 19. Count to David from the end of each verse. The total words are 38. Time after time we find 19 tied to 38, and 38 tied to 51, as $38 \times 51 = 1938$.

Thus we find 19 verses in the 38th Psalm of David, which is Psalm 51. Or, the 38th David in the K.J.V. is in I Samuel 17:50, while the 51st David in the K.J.V. is in I Samuel 18:8, because $1750 + 188 = 1938$!

Pyramid Prophecy Part 3

The word "Psalms" was designed to tell the whole story, including the 38th Psalm of David being Psalm 51. Below are pyramids of Psalms and Psalms 51:

The center column of Psalms is 51 and 38. The four corners going counterclockwise are 1938. In the exact center of the base is 112 or 11/2 or

November 2nd. In addition, the 1619 on the left of 112, plus the last 3 digits on the right add up to 1938. Further, the last 3 digits on the left of 112, plus all the digits on the right side add up to 1938.

$$\begin{array}{r} 1619\ 1319 \\ +\ 319 + 619 \\ \hline 1938\ 1938 \end{array}$$

More explicit is the pyramid of Psalms 51, which is topped with 1938 from right to left.

The David of the prophecy is known for teachings called "14 Words" and "88 Precepts." We have seen the 88 in the equation $88^2 = 7744$, and in the 88 repetitions of David or Davids in Psalms. Now we will see the specific numbers in the longest chapter of the K.J.V., Psalms 119. Remember again how careful the framers of the K.J.V. had to be in their coding in order to escape torture and death.

Psalms 119 is divided into 22 sections of 8 verses each for a total of 176 verses, which is $2 \times 88 = 176$. So logically the 14 Words and 88 Precepts are encoded twice.

Each section is headed by a letter and a word. Count to the 14th title word, heading the 14th section. In that section the 88th word is PRECEPTS.

Now go to the 88th verse. It has 14 words and is preceded by the word precepts. So counting backwards see 14 Words and 88 Precepts. Additionally, rounded to the nearest 10th, 88 percent of the repetitions of the word precepts in the K.J.V. are in Psalms 119.

In the teachings of the ancient "mysteries," the Creator was called the "Grand Mathematician/Geometrician of the Universe." Partly because of the geometric forms of nature. Easy examples being the hexagons of honeycombs and snowflakes. Also because human events seemed to correspond with numbers and patterns from seven mathematical devices now called the first seven magic squares.

So these magic squares were called, in coded form, the seven spirits, eyes, angels, etc., of God. (See Zechariah 4:10; Revelation 5:6; and elsewhere.)

The K.J.V. Bible is designed to reflect the "Seven Spirits" (Magic Squares) and is thus a book "sealed with seven seals." Now read the last 14 words of Revelation 5:5: "David hath prevailed to open the book and to loose the seven seals thereof." That is precisely what David Lane did.

Revelation 2:17 and 3:12 proclaim in artfully concealed words that God will take a new name, written in a man, in a city, and in A White Stone.

David Lane was born in Woden, Iowa and often uses the pen name Wodensson.

Thus the name is written in a man and a city. And "A White Stone" is an anagram. Rearrange the letters and they spell Thee is Wotan. Wotan is of course the modern spelling of the Norse/Germanic God Odin. Wednesday, David's birthday, November 2, 1938, is named for Woden/Wotan/Odin.

Shown next is the Magic Square of the Sun, source of the famed number 666. It is the best known of the seven figures called the seven spirits of God.

It is comprised of all the numbers 1 through 36, which when added together, $1+2+3+4+5$, etc., total 666. It's first function is that every number is part of a square or rectangle that adds to 74. Examples are the four corners of $6+1+31+36=74$, or a rectangle of $7+30+12+25=74$. This is why so much of the K.J.V. coding involves 74, as do holy names shown earlier. Note also that every column, vertically, horizontally, or diagonally adds to 111 or one sixth of 666.

Around the sun square are the 12 signs of the Zodiac, each represented by one of the 12 factors of 666. The 8th sign, Scorpio, is represented by 74. Scorpio includes November 2, David's birthday.

The total of the 12 factors is 1482, which is why the completion of Solomon's Temple in I Kings 7 has 1482 words in it's 51 verses. The Temple,

the Great Seal, the Great Pyramid and the coded K.J.V. all are the same prophecy of the bringer of light and reason, the Sun Man.

Shown next is the number pyramid of all 12 factors of 666 in ascending order. The exact center is 1938 and the top is 26. Which is why the most cleverly concealed, yet most specific prophecy is found in the 26th book of the K.J.V., called Ezekiel.

As can be seen, 1938 is a natural function of the sun square factors. Perceptive scholars will also realize how Hermetic philosophers set dates for calendar beginnings to correspond with future events, based on the magic squares. They say the divine plan is within the seven spirits (squares) of God.

David is found four times in Ezekiel. All references are future tense, a prophecy. Although Ezekiel in the overt story lives hundreds of years after David.

David is found in Ezekiel in Chapter 34:23, 34:24, 37:24 and 37:25. Three of the four verses call him, "My Servant David." The anomaly, in Chapter 37:24, calls him, "David My Servant." Such anomalies are used to say, "Look Here." The words "My Servant David" are a number pyramid as shown next. The pyramid demonstrates 749, the Key of David from the Book of Revelation.

The three verses containing "My Servant David", are a code wheel. Seven times around and David is 666. Fourteen more times around and he is 1938.

Another reason that David is found three times in Revelation is that the 14th factor of 1938 is 646, and $3 \times 646 = 1938$. The pyramid of David three times is shown here.

There are 39 books in the Old Testament and 27 books in the New Testament for a total of 66 books in the Bible. This is because:

$$\begin{array}{r}
 39^2 \\
 27^2 \\
 +66^2 \\
 \hline
 6606 \text{ to encode } 666!
 \end{array}$$

Also because a number pyramid of 39-27-66, running both ways from a center point shows a hidden message. That pyramid is as follows:

$$\begin{array}{r}
 741 \\
 +741 \\
 \hline
 1482
 \end{array}$$

The number 741 is the numerical value of the 14 Words of David Lane, 741 forms the Star of David in the magic square of the Sun. 741 twice, as shown above, totals 1482, the number of words in the completion of Solomon's Temple (I Kings 7), and the sum of the factors of 666.

As shown earlier, the Bible has 1189 chapters because they are a code wheel. 1189 plus 749, i.e., the Key of David, is 1938. That 749th and 1938th chapter is Jeremiah, the fourth chapter. There are 112 verses in the first four chapters of Jeremiah, representing November 2nd. (11,2).

The verses are divided among the four chapters so as to create an explicit number pyramid with a base running both ways from a center point.

The chapters have 19, 37, 25, and 31 verses respectively.

* From each side at the top see Nov., 2, 1938!

Methuselah, being the oldest man ever to live, implies great wisdom in Hermetic coding. His story is found in Genesis, Chapter 5. His story and the value of his name are demonstrated here:

M	13	
E	5	
T	20	
H	8	
U	21	
S	19	
E	5	
L	12	187
A	1	782
H	+8	+969
	<hr/> 112	<hr/> 1938

He lived 187 years and has a son. Then he lived another 782 years for a total of 969 years. Since 969 is exactly one half of 1938, then naturally the three ages, 187, 782 and 969 add up to 1938. Meanwhile the value of his name is 112 or 11,2 or November 2nd.

Additionally, since his age is divided into two time periods, before his son and after, we divide into. 969 divided into 187,782 is 193.8, rounded to the nearest tenth.

In the 3rd chapter of Luke, Methuselah is word 969 and his name is changed to Mathusala.

The last half of the word Methuselah is selah, a word which appears 74 times in the K.J.V., as another link between 1938 and 74. Selah mostly appears in Psalms, commonly linked to David. Selah is a signature at the end of Psalms 46. Count 666 chapters from the end of the Bible and come to Psalms 46.

Count 46 words from the front of the Psalm. The word is shake. Exclusive of the signature word selah, the 46th word from the end of Psalm 46 is spear. That is how we are told that Sir Francis Bacon, the real author of the works credited to Shakespeare, also designed the Pyramid Prophecy in the K.J.V. Bible.

There are many more codes and pyramids in the K.J.V., but the subject has been sufficiently covered that only the determinedly self deceiving can deny the prophecy.

That the future of civilization depends on 14 Words and 88 Precepts becomes more evident with each passing day. So let us conclude with one more look at the Great Seal of the United States. Around the stars over the eagle note 19 scrolls. Inside the scrolls are 24 trapezoids and 13 five pointed stars for a total of 37 geometric figures. The six pointed Star of David makes the 38th geometric figure inside the 19 scrolls!

That the Great Pyramid, the Great Seal, and the coded K.J.V. are the prophecy, of a man named David, born November 2, 1938, known for 14 Words and 88 Precepts is a mathematical fact.

THE END OR THE BEGINNING
